

MAJOR SUPPLIERS

AC & DC Drives, & Low Voltage Industrial IEC Control Products & Power Distribution

Enclosures, Stainless Steel, Fiberglass, Polycarbonate, Explosion Proof & Dust Ignition Proof

Non-Metallic Electrical Boxes & Enclosures

Terminal Blocks, Power Devices, Modules & Relays, Circuit Protection, Connectors, Pilot Devices, Tower Lights & Sensors

Pilot Devices, Cam Switches & Disconnect Switches

Time Delay Relays, Phase/Voltage Monitors, Loss Relays, Current Monitors, Power Alerts, Pump & Level Control

Optical Encoders, Magnetic Encoders, Absolute Encoders, Timers, Counters & Resolvers

30MM Phase Loss Voltage LED Indicators, Programming Ethernet Ports for PLC's, VFD's & HMI's

N1, N4, N4X SS Industrial Enclosures, Racks & Rack Cabinets

Switches, Drum Control & Pushbutton Stations

Wiring Duct, Din Rail, Spiral Wrap & Cable Ties, Connectors, Tubing & Dinosaur Duct

Position Sensors, Vision Sensors, Process Sensors & Power Supplies and Accessories

Explosion Proof Enclosures, Fittings, Distribution Equipment, Plugs, Receptacles & Controls Lighting

Fuses, Surge Protection, Power Distribution Blocks, Fuse Holders & Fuse Bases

Control Power Transformers, Buck-Boost & General Purpose Transformers

Cooling Units, Chillers, Heat Exchangers, Signaling Solutions & Filter Fans

Wire Mesh Grips, Cable Connectors, Molded Components & Cord Grips

Time Delay Relays, AC Current Relay & Liquid Level Control Relays, Transient Voltage Filters, Voltage Relays & Electronic Timers

Standard & Custom Electrical Enclosures, JIC Boxes & Push Button Stations

Plug In Octel & Blade Style Relays & Relay Sockets

Linear Actuators, Actuator Controls, Non-Contact Sensors & Industrial Switches

Open & Enclosed IEC Motor Starters, Contactors, Overload Relays, Manual Motor Circuit Protectors, VFD'S, Soft Starters & 30MM Pilot Devices

MOTOR CONTROL SPECIALISTS

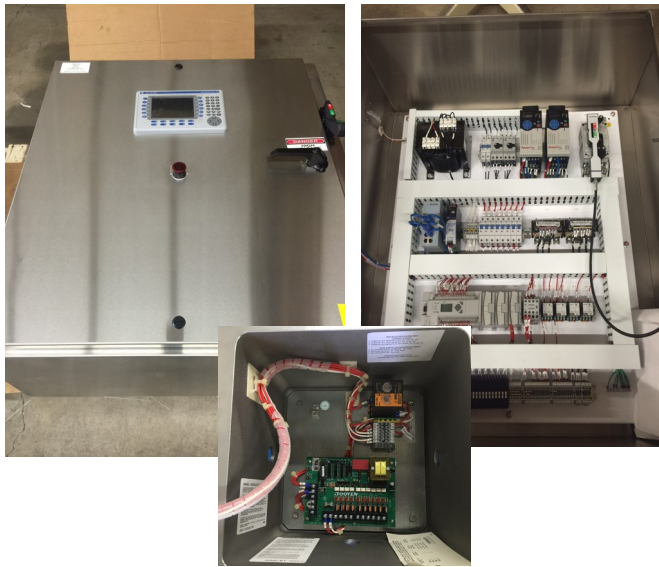

UL 508A Industrial Control Panel Shop

Our Panel Shop offers various custom control panels for use in a variety of industrial applications. From simple Compressor, Pump & AC VFD Panels to highly sophisticated OEM PLC Integrated Systems. Our UL 508A Certified panel shop maintains the most rigorous quality process and standards so that you can be sure your panel will be made right. Whether it's repetitive control panels or the custom design and build of a "one-off" panel, APEX can create a production schedule to fit your budget and meet your deadline.

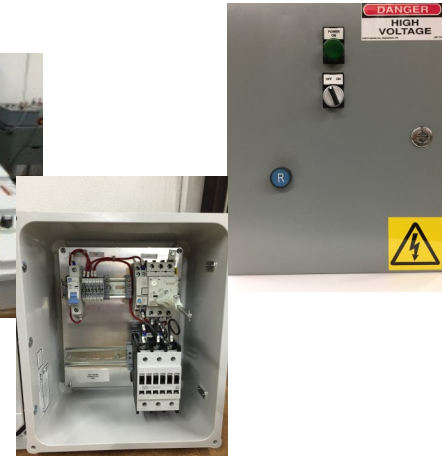

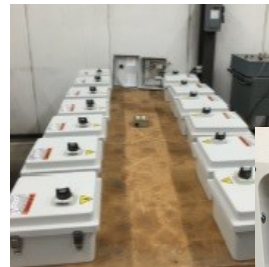

Design Services

- Complete turnkey system integration
- Custom Engineering
- Application Evaluations
- PLC, HMI, PC Based Control Systems

Panel Manufacturing

- Custom Builds
- OEM Builds
- Contract Manufacturing Builds
- Retrofits

Industrial Controls Installation, Service & Support

- 24 Hour Repair Service
- OEM System Integration
- Preventative System Maintenance
- Design & Build Customer Installation or wire to pre-existing circuits
- Continued support thru product life, including customer owned schematics & PLC programs

"Service is our Product"

**Quality Products • Quality Repair
Superior Customer Service**
